A scientifically formulated nutritional supplement rich in fatty acids, especially linoleic acid designed to promote the growth of exceptionally healthy, silky, smooth, hair, mane and tail. Heat processed to insure freshness and palatability. Select Nu-Image is a high-quality coat conditioner at a reasonable price. DIRECTIONS: Feed 2 scoops a day for 3 days, then feed 1 scoop a day.

5131        2-lbs.      5139        4-lbs.       5172        20-lbs.
5121         gel.
5140       5.66-lbs.

Select I Select
A vitamin and mineral supplement for horses on alfalfa hay or grass. Nu-Hoof Maximizer also contains a source of live (viable), naturally occurring microorganisms (beneficial bacteria). Select is for horses on rations using more than 8 pounds of alfalfa hay per horse per day. DIRECTIONS: Horses under 100 lbs. - 2 tsp. per head per day; Horses over 100 lbs. - 3 tsp. per head per day. Mares in last third of gestation and first third of lactation - 4.5 oz. per head per day.

5143          15-lbs.        5154        28.3-lbs.
5157        10-lbs.

Select II Select
A vitamin and mineral supplement for forest rations using less than 8 pounds of alfalfa hay, or for horses on grass, oat hay, or high grain rations. Contains a source of live (viable), naturally occurring microorganisms (beneficial bacteria). DIRECTIONS: Horses under 100 lbs. - 2 tsp. per head per day; Horses over 100 lbs. - 3 tsp. per head per day. Mares in last third of gestation and first third of lactation - 4.5 oz. per head per day.

5142       5.66-lbs.
5143       15-lbs.
5154       28.3-lbs.

MSM Select
MSM is a powerful and useful compound when used alone or with therapeutic agents. MSM delivers pure methylsulfonylmethane, a natural sulfur nutrient and the prime metabolite of DMSO. DIRECTIONS: One level scoop twice per day for one week, then put on maintenance dose: one level scoop per day.

5137          1-lb.
5131          2-lbs.
5139          4-lbs.
5172          20-lbs.

At-Ease Select
A natural amino acid, vitamin and mineral supplement that decreases anxiety in nervous horses. DIRECTIONS: Powder - feed one teaspoon twice per day beginning 1 to 4 days prior to and two teaspoons three hours before desired event. Paste - 1.5 tsp. per dose. Feed one dose to 3 hours before and one dose immediately before desired event.

5127     paste/syringe
5128     1.5-lb. powder

Stress-Pak Powerlyte Gel Select
A combination of monovalent electrolytes and minerals designed to replace trace elements lost by horses. DIRECTIONS: Powder - 1 to 4 tsp. to 2.5 to 10 gallons of water, or top-dress on grain as directed. Gel - 1.5 ml per dose. 5121 gel. 5104 2-lb. powder

Legacy Select
A nutritional supplement specifically designed for senior horses. Components proven to enhance and strengthen joints, connective tissue, and soft tissues. DIRECTIONS: Feed two scoops per head per day, one in the morning and one in the afternoon or evening. Scoop included.

5171          5-lbs.
5173          10-lbs.
## Feed Supplements

### Nu-Flex Maximizer w/Ester C
- **Select**
- A scientifically formulated nutrition supplement designed to repair cartilage damage, strengthen the skeletal system, improve flexibility, relieve ache and pain associated with stiffness and swelling, and delay cell degeneration.
- Nu-Flex Maximizer is a balanced blend of joint lubricant (Gluconic acid HCl), pain reliever (Tricosan), and the powerful antiinflammatory vitamin B12. Carteinstene and Ester C is safe, non-toxic, palatable, and affordable complete supplement.
- **DIRECTIONS:** Feed approximately 3 scoops daily per head per day for 28 days. Then a maintenance dose of 1 scoop per day.
  - **Price:** $116 5-lbs.

### Nu-Image Dark Horse
- **Select**
- Dark Horse Nu-Image helps prevent that washed out reddish-orange look, and brings out the essence of your horse’s natural coat color. It promotes a rich shine on a brown, bay or black horse. Dark Horse Nu-Image includes key nutrients for skin and coat health.
  - **Price:** $595 5-lbs.

### Foal Response
- **Select**
- Foal Response has been formulated to provide newborns with the optimum immediate-care nutrition that they need. Foal Response provides the live microorganisms that may be missing in your foal’s gut at the time of birth. Calcium and probiotics found in Foal Response, along with other essential nutrients, make it an ideal supplement for newborn, older foals, and weanlings.
  - **PREVENTIVE USES:**
    - Warm to body temperature. Feed entire tube immediately following birth.
    - **Price:** 3066 10 ml. syringe

### Foal-Lac Pellets
- **Select**
- Foal-Lac Pellets is nutritionally complete supplement that is reconstituted with water for feeding to orphaned or early weaned foals. Formulated specifically for foals, Foal-Lac simulates the nutritional composition of mare’s milk.
  - **DIRECTIONS:**
    - Feed one or two (1 or 2) cups of Foal-Lac Powder with three cups of warm water.
    - This yields approximately one and one-half pints of milk replacement.
    - **Price:** 7213 5-lbs. 7225 25 lbs.

### Foal-Lac Powder
- **Select**
- Foal-Lac, in milk replacer is a nutritionally complete powder that is reconstituted with water for feeding to orphaned or early weaned foals. Formulated specifically for foals, Foal-Lac simulates the nutritional composition of mare’s milk.
  - **DIRECTIONS:**
    - Feed on an as needed basis, providing milk replacer to nursing foals at a rate where the mare’s milk decreases in quantity and quality. May be used for early weaned foals, nursing foals before and during weaning, gestating or lactating broodmares, and breeding stallions.
    - **Price:** 3014 20-lb.

### Red Cell
- **Select**
- Red Cell is the “industry standard” for fueling champion horses. Yucca-flavored Red Cell supplement provides several vitamins and minerals, including 300 mg of chelated iron. Potent, reliable, and palatable, Red Cell is homogenized for consistency and is great for horses in or out of training.
  - **Price:** 3066 3-lb. 3014 20-lb.

### Equi-Tussin
- **Select**
- Equi-Tussin cough syrup is an effective decongestant, expectorant, and antiinflammatory for horses. Equi-Tussin is formulated for the treatment of the equine cold, flu, allergies, and stable cough in a heavy syrup base of both expectorants and aromatic oils for ease of use and palatability. Equi-Tussin is best administered by adding to feed or by oral syringe (not included). Start by giving the dosage in gradual amounts the first three days. If chronic cough, depressed appetite, or decreased water consumption is experienced, consult your veterinarian.
  - **Price:** $138 qt.

### Nu-Hoofer Accelerator
- **Select**
- Accelerator with A-FLEX EQ, 30 day supply, contains the most advanced combination of essential nutrients and ingredients available on the market to provide accelerated hoof growth for today’s active horse.
  - **Price:** $126 11-lbs.

### Fluid Flex
- **Select**
- Fluid Flex provides balanced protein and other essential nutrients for growth in foals. When used as a supplement to the foal’s creep ration, these pellets provide milk nutrients to nursing foals at a time when the mare’s milk declines in quantity and quality. May be used for early weaned foals, nursing foals before and during weaning, gestating or lactating broodmares, and breeding stallions.
  - **DIRECTIONS:**
    - **Price:** 6764 3-lb.

### Foal-Lac
- **Select**
- **Flavor:**
    - **Price:** 3014 20-lb.

### Mare Plus
- **Select**
- Mare Plus is rich in vitamins A, D, and E, as well as calcium, phosphorus, and iodine. It helps build and condition your mare’s coat to meet the demands of pregnancy. Keeps them in peak condition during gestation, foaling and lactation. Start feeding Mare Plus 90 days before conception and keep Mare Plus on your mares’ diet until they are bred. It will help maximize your breeding program’s success.
  - **Price:** 3396 3.75-lb. 3392 8-lb.

### Weight Builder
- **Select**
- Weight Builder provides concentrated calories in the form of fat which has nearly twice the calories per ounce of sugar, yet doesn’t cause digestive upset that grain causes. Its primary source of fat includes fish meal, which is high in Omega-3 fatty acids, and the calcium/phosphorus ratio is balanced so it can be fed with other supplements. Also enhances skin and coat.
  - **Price:** 3394 4-lbs. 3393 28-lbs.

### Grow Colt
- **Select**
- Grow Colt is a special supplement just for growing foals. Grow Colt supplies 23 vitamin and mineral nutrients needed for proper development. Grow-Colt aids in growth and development. Includes calcium and phosphorus for proper bone development and energy delivery. Also contains biotin. Everything your foal needs for a healthy start to life. *DIRECTIONS:* To avoid feeding results from weaning, some supplementary feed should be given while the foals are still nursing the mare. At weaning, feed the foal 1 1/2 lbs. of hay per 100 lbs. of body weight with 2 ounces of Grow Colt daily.
  - **Price:** 6760 3-lb. 6761 7-lb. 3011 20-lb.

### Max Flex
- **Select**
- Max Flex Glucosamine Pellets™
  - Maximum relief glucosamine pills. 50% more glucosamine HD than regular strength MaxFlex. Contains combination of yucca, omega fatty acids, vitamins and minerals to help maintain healthy joints.
  - **Price:** 3396 3.75-lb. 3392 8-lb.

### Healthy Coat
- **Select**
- All Natural Healthy Coat is the total supplemental nutritional package for your horses’ optimum health and top performance.
  - **DIRECTIONS:**
    - **Price:** 3726 qt. 3727 gal. 3728 2.5-gal.
# Feed Supplements

## H.B. 15

Proteins are one of the most important of all nutrients needed for growth, reproduction, lactation and daily physical activity. Amino acids are the “building blocks” of proteins. H.B. 15 contains the essential amino acids lysine and methionine, which are recognized as especially vital for growth and tissue maintenance in horses. H.B. 15 also contains Vitamin B12, which is a key vitamin in the metabolism of these amino acids. H.B. 15 has been specially formulated to contain biotin, which is widely recommended by veterinarians. DIRECTIONS: Measuring cup = 1 ounce. Feed H.B. 15 at the following daily rates:

Optimized w/MSM, 1400-gm, 6-lb/bcs

Cosequin Optimized is a new formula with higher levels of active ingredients for improved joint health. It has double the glucosamine hydrochloride, at 14,400 mg, and 2,400 mg of chondroitin sulfate as compared to the original Cosequin Equine formula. The new Cosequin Optimized for horses has the further addition of high purity MSM, or methylsulfoxonamide, which is an organic source of sulfur, a compound used by cartilage. Some veterinarians suggest using MSM to help manage joint health. It contains 10,000 mg of MSM per 2 scoops. For those who want additional MSM supplementation, Cosequin Optimized offers a convenient, cost-effective way to administer MSM along with the proven ingredients in Cosequin.
